Dubai School Inspection Bureau identified:

Key strengths of the school:

- Good attainment and progress in Arabic, Islamic Studies, English and mathematics;
- Outstanding tracking of students' individual progress in all grades and in the four core subjects;
- Well maintained and attractive learning resources, used imaginatively by teachers and students;
- Excellent relationships between teachers and students, and high quality support for students' well-being;
- Strong, ambitious leadership by the Principal and her senior team and effective leadership by subject co-ordinators;
- Outstanding links with parents, particularly effective in the context of the opening of a new school.

Dubai Schools Inspection Bureau requires that the school take the following action to secure further improvement:

- Use the high quality assessment and tracking procedures to match teaching to all learning needs in classrooms;
- Build on current practice to develop more student-led learning;
- Increase students' use of information and communication technology and investigative resources to develop their independent study-skills and thinking skills.

Next steps:

The school, working with the Schools Agency, has been asked to prepare an action plan indicating how it will address the main findings of the report, and to share that plan with parents. The next inspection will report on the progress made by the school.

About Inspections:

The purpose of inspection

The inspection was part of a strategy to evaluate educational standards and quality in all of the schools in Dubai. The inspection covered core aspects of the work of the school at all stages. Inspectors assessed the students' progress in key subjects, in particular, Arabic, Islamic Studies, English, mathematics and science (Grades 6 to 12). They evaluated important aspects of the work of the school including the quality of teaching and learning, the arrangements to protect and support students, including health and safety, leadership and management and the school's capacity for improvement.

The framework for inspection

All schools in Dubai were evaluated against seven central questions based on internationally accepted research into school effectiveness. Inspectors' evaluations concluded with a final judgement regarding the overall performance of the school. In the first cycle of inspections the judgement used for every school was:

Description of inspection levels

Level 4: Outstanding quality – exceptionally high quality of performance or practice.

Level 3: Good quality – the expected level for every school in Dubai.

Level 2: Acceptable – the minimum level of acceptability required for Dubai. All key aspects of performance and practice in every school should meet or exceed this level.

Level 1: Unsatisfactory – quality not yet at the level acceptable for schools in Dubai. Schools will be expected to take urgent measures to improve the quality of any aspect of their performance or practice that is judged at this level.

More information regarding the Inspection levels can be found in the online version of the Initial Quality Inspections Handbook at www.khda.gov.ae.

Inspectors assessed the following aspects of the work of the school:

- How good is the students' progress?
- How good is the students' personal and social development?
- How good is the teaching and learning?
- How well does the curriculum meet the educational needs of the students?
- How well does the school protect and support students?
- How good are the leadership and management of the school?
- How well does the school perform overall?

What happens next year?

A full report will be provided to parents in the second year. This will include information regarding inspectors' judgements on each of the quality indicators assessed.
