Dubai School Inspection Bureau identified:

Key strengths of the school:

- The excellent relationships between staff and children;
- Well behaved children who demonstrated very good attitudes to learning;
- The children enjoyed a rich breadth of experiences through school visits which enabled them to gain a real understanding of the world surrounding them;
- The Principal and her senior staff had an outstanding vision for the school that was shared and delivered effectively by the management team.

Dubai Schools Inspection Bureau requires that the school take the following action to secure further improvement:

- Further develop the curriculum to provide greater opportunities for developing number skills and open ended activities that children choose, such as art work and active play;
- Complete the outside play area so that children enjoy play and learn out of the classroom;
- Share the good practice of teachers' observational skills used for assessment, the use of open-ended questions, and making learning exciting, so that all teachers have the skills of the best;
- Further develop strategies to ensure that the most able children are fully challenged and extended.

Level 4: Outstanding	How well does the school perform overall?	Good
Level 3: Good		
Level 2: Acceptable		
Level 1: Unsatisfactory		

Next steps:

The school, working with the Schools Agency, has been asked to prepare an action plan indicating how it will address the main findings of the report, and to share that plan with parents. The next inspection will report on the progress made by the school.

About Inspections:

The purpose of inspection

The inspection was part of a strategy to evaluate educational standards and quality in all of the schools in Dubai. The inspection covered core aspects of the work of the school at all stages. Inspectors assessed the students' progress in key subjects, in particular, Arabic, Islamic Studies, English, mathematics and science (Grades 6 -12). They evaluated important aspects of the work of the school including the quality of teaching and learning, the arrangements to protect and support students including health and safety, leadership and management and the school's capacity for improvement.

The framework for inspection

All schools in Dubai were evaluated against seven central questions based on internationally accepted research into school effectiveness. Inspectors' evaluations concluded with a final judgement regarding the overall performance of the school. In the first cycle of inspections the judgement used for every school was:

Description of inspection levels

Level 4: Outstanding quality – exceptionally high quality of performance or practice.

Level 3: Good quality – the expected level for every school in Dubai.

Level 2: Acceptable – the minimum level of acceptability required for Dubai. All key aspects of performance and practice in every school should meet or exceed this level.

Level 1: Unsatisfactory – quality not yet at the level acceptable for schools in Dubai. Schools will be expected to take urgent measures to improve the quality of any aspect of their performance or practice that is judged at this level.

More information regarding the Inspection levels can be found in the online version of the Initial Quality Inspections Handbook at www.khda.gov.ae.

Inspectors assessed the following aspects of the work of the school:

- How good is the students' progress?
- How good is the students' personal and social development?
- How good is the teaching and learning?
- How well does the curriculum meet the educational needs of the students?
- How well does the school protect and support students?
- How good are the leadership and management of the school?
- How well does the school perform overall?

What happens next year?

A full report will be provided to parents in the second year. This will include information regarding inspectors' judgements on each of the quality indicators assessed.
