 Number of students of determination	133

Teachers	
 Number of teachers	172
 Number of teaching assistants	48
 Number of guidance counsellors	2

Overall Performance for GEMS FOUNDERS SCHOOL - MIZHAR

Summary of Inspection Findings 2021-2022

GEMS Founders School Al Mizhar opened in 2018. It is located in Al Mizhar 1. Boys and girls are provided with the opportunity to study the National Curriculum for England. At the time of the inspection, there were 3027 students from the Foundation Stage to Year 11. The school was inspected in March 2022. This was the first inspection of the school since it opened.

The Principal, Mr Tarik, joined the school in 2020 and is the second Principal since the school opened. The school has expanded rapidly since it opened with 947 new students and 76 new teachers joining during the 2021 to 2022 academic year.

The school provides a good quality of education for students. There are 575 Emirati students in the school. The quality of education provided for them and others meets the requirements of the UAE that all its citizens will attend good schools. The principal is committed to the school developing leaders for the future. Most leaders in the school have a good understanding of the school's curriculum and what good teaching should be. They do not always use this knowledge well enough to check that all teachers are helping students to do as well as they can.

Students make good progress in almost all subjects except Arabic and Islamic Education. Students of determination are well supported and make good progress. Students in all classes enjoy a curriculum that is varied and provides them with real life experiences. Teachers know their students well and try hard to provide students with work that will help them improve. Although this is not always successful.

Students are very safe in this school. They receive good levels of care and guidance. Students confirm they have good relationships with adults and with each other. The KHDA Students' Wellbeing Census shows that students' level of happiness is in line with that of others in Dubai private schools. Students express high levels of satisfaction of what the school provides for them.

The next steps for the school are to ensure that:

- teachers always provide work that will help students improve;
- leaders make careful checks on how well teachers are helping students to do their best; and
- students improve how well they learn in Arabic and Islamic Education.
