OVERALL SCHOOL PERFORMANCE

ACCEPTABLE

OUTSTANDING

Quality of performance substantially exceeds the expectation of the UAE

VERY GOOD

Quality of performance exceeds the expectation of the UAE

GOOD

Quality of performance meets the expectation of the UAE (This is the expected level for every school in the UAE)

ACCEPTABLE

Quality of performance meets the minimum level of quality required in the UAE

WEAK

Quality of performance is below the expectation of the UAE

VERY WEAK

Quality of performance is significantly below the expectation of the UAE

WHAT ARE THE SCHOOLS' STRENGTHS AND POINTS TO IMPROVE?

BEST FEATURES OF THE SCHOOL

- Students are very responsible and behave well; they understand Islamic values and appreciate Emirati culture
- Arabic is good across all phases of the school
- The curriculum is set out well with American curriculum standards and good assessment
- Students of determination are included and their needs are supported
- The school is safe and secure, giving students a good place for learning

POINTS TO IMPROVE

- Improve student progress in each subject
- Increase teachers' skills in helping students solve problems on their own
- Use assessment data to see which students need help in filling any gaps in their learning and then give this personal support
- Lift the reading skills of every student so most students' reading literacy is at least the same as their age level.

WELLBEING

THE QUALITY OF WELLBEING PROVISION AND OUTCOME IS AT A MODERATE LEVEL

School leaders understand the need to promote wellbeing for all students, teachers, staff and parents. There are good examples of how governance provided support during Covid and afterwards. The school uses surveys to learn about everyone's wellbeing, and made changes to improve it based on what they learned. Counsellors support students' wellbeing and leaders support teachers and staff. Activities in the school support students' wellbeing, their healthy lifestyles and their career planning.

PROGRESS IN KEY SUBJECTS AND INCLUSION

Students make good progress across all grades in Arabic and Science. High School students make good progress in every subject except English. In Arabic, students show gains in writing as well as speaking skills, but in English, these areas are less strong. In science, from Kindergarten (KG) upwards across all grades, students are improving their scientific skills and understanding. Students of determination are well supported in their learning across the school and many make good progress. In some lessons, there is insufficient personalisation to meet the needs of all students of determination.

THE OVERALL PROVISION OF STUDENTS OF DETERMINATION IS **GOOD**

LEADERSHIP AND TEACHING FOR EFFECTIVE LEARNING

The principal and other leaders know what is needed to improve the school. They plan and act to make this happen for the academic needs of students, and to create a secure and inclusive place of learning. The school runs well, day to day, with good management practices. Successful improvements to curriculum and assessment will support their next steps.

The quality of teaching varies across the school and in different subjects. The best teaching gives students' chances to practice what they are learning in practical ways. Kindergarten teachers give children the chance to explore in centers. The better teachers in the upper grades plan lessons where students are actively involved and investigating topics more deeply.
