### About Inspections:

#### The purpose of inspection

The inspection was part of a strategy to evaluate educational standards and quality in all of the schools in Dubai. The inspection covered core aspects of the work of the school at all stages. Inspectors assessed the students' progress in key subjects, in particular, Arabic, Islamic Studies, English, mathematics and science (Grades 6 to 12). They evaluated important aspects of the work of the school including the quality of teaching and learning, the arrangements to protect and support students, including health and safety, leadership and management and the school's capacity for improvement.

#### The framework for inspection

All schools in Dubai were evaluated against seven central questions based on internationally accepted research into school effectiveness. Inspectors' evaluations concluded with a final judgement regarding the overall performance of the school. In the first cycle of inspections the judgement used for every school was:

#### Description of inspection levels

**Level 4: Outstanding quality** – exceptionally high quality of performance or practice.

**Level 3: Good quality** – the expected level for every school in Dubai.

**Level 2: Acceptable** – the minimum level of acceptability required for Dubai. All key aspects of performance and practice in every school should meet or exceed this level.

**Level 1: Unsatisfactory** – quality not yet at the level acceptable for schools in Dubai. Schools will be expected to take urgent measures to improve the quality of any aspect of their performance or practice that is judged at this level.
