Dubai School Inspection Bureau identified:

Key strengths of the school:

- The development of the students' social and civic understanding;
- The support provided by the school nurse.

Dubai Schools Inspection Bureau requires that the school take the following action to secure further improvement:

- Improve the quality of teaching and learning and develop effective strategies to manage teaching performance;
- Ensure that the curriculum provision meets the needs of the students in the school;
- Address the health and safety hazards by:
 - Ensuring that both school gates are secure;
 - Attending to the inadequate safety netting;
 - Clarify procedures and carrying out an emergency evacuation practice;
 - Ensuring that seatbelts are in place on buses and worn by students.
- As the villa accommodation provided an unsatisfactory learning environment, the school should improve the quality of the accommodation to an acceptable standard;
- Review and correct misleading inaccuracies in the school website;
- Ensure that the teaching and support staff are sufficiently qualified to teach the curriculum;

- Provide sufficient resources for student learning.

Next steps:

Mirdif Private School has to prepare an action plan indicating how they will address the main findings of the report, and to share that plan with parents. The next inspection will report on the progress made by the school.

Inspectors will monitor the progress made by the school over the next three months.

About Inspections:

The purpose of inspection

The inspection was part of a strategy to evaluate educational standards and quality in all of the schools in Dubai. The inspection covered core aspects of the work of the school at all stages. Inspectors assessed the students' progress in key subjects, in particular, Arabic, Islamic Studies, English, mathematics and science (Grades 6 to 12). They evaluated important aspects of the work of the school including the quality of teaching and learning, the arrangements to protect and support students, including health and safety, leadership and management and the school's capacity for improvement.

The framework for inspection

All schools in Dubai were evaluated against seven central questions based on internationally accepted research into school effectiveness. Inspectors' evaluations concluded with a final judgement regarding the overall performance of the school. In the first cycle of inspections the judgement used for every school was:

Description of inspection levels

Level 4: Outstanding quality – exceptionally high quality of performance or practice.

Level 3: Good quality – the expected level for every school in Dubai.

Level 2: Acceptable – the minimum level of acceptability required for Dubai. All key aspects of performance and practice in every school should meet or exceed this level.

Level 1: Unsatisfactory – quality not yet at the level acceptable for schools in Dubai. Schools will be expected to take urgent measures to improve the quality of any aspect of their performance or practice that is judged at this level.

More information regarding the Inspection levels can be found in the online version of the Initial Quality Inspections Handbook at www.khda.gov.ae.

Inspectors assessed the following aspects of the work of the school:

- How good is the students' progress?
- How good is the students' personal and social development?
- How good is the teaching and learning?
- How well does the curriculum meet the educational needs of the students?
- How well does the school protect and support students?
- How good are the leadership and management of the school?
- How well does the school perform overall?

What happens next year?

A full report will be provided to parents in the second year. This will include information regarding inspectors' judgements on each of the quality indicators assessed.
